Why choose SSR?

We help insurance brokers protect their clients, however unique their business may be.

We've been helping insurance brokers protect their clients for over 35 years. With expert knowledge, our talented underwriting team create tailored insurance policies that cater for niche industries, with the ability to offer bespoke cover with competitive terms. Over the years, our range of products has been continuously developed to provide market leading cover for a range of industries requiring specialist insurance and support;

- Security and Fire Protection industries
- Cleaning contractors
- Electrical, Ventilation, Air conditioning and Refrigeration contractors
- Renewable Energy contractors
- Facilities & Specialist Contractors
- Pest Control contractors
- Drain Cleaning contractors
- Home Automation and Building Management System contractors
- Interior and Fit Out contractors
- Airside and Aviation Product Liability (including the use of vehicles)
- XSSR open market excess of loss

You're in safe hands

Between us, our expert team have over 364 years of experience in our niche industries, with an average of well over 10 years each working for us handling these specialist areas. Several employees have 20+ years with us. When it comes to specialist insurance, you can be sure you are in safe hands.

We have maintained an exclusive relationship with QBE since 1989, which has enabled us to consistently meet the needs of high-risk industries, backed up by excellent service and the security of the worldwide QBE Insurance Group. In 2023, we became an Acrisure Partner, further strengthening our position in the insurance market.

- Our dedicated in-house claims team are well versed in handling claims for our niche industries.
- Because we deal with a limited number of industries, we are able to ensure our technical expertise remains focused on the needs of contractors operating in those industries.
- We encourage our staff to develop their knowledge through qualifications – all underwriters and claims handlers hold Cert CII as a minimum, with some members of the team going on to advanced studies.
- We are not a call centre. Instead, we pride ourselves in cultivating an experienced team of underwriters, many of whom have been with us for over ten years and understand the needs of your clients.
- We work only with brokers – we do not write business direct and our TOBA reflects this commitment. We do not deal directly with clients, and feel their needs are best served by the support and knowledge of a broker local to them, who is able to access our niche products for their clients on a wholesale basis.

Broker Development

We've had a dedicated broker development team since 2013, who focus on nurturing our broker partnerships, no matter how big or small your book of business is. Our friendly and knowledgeable team would be happy to arrange a meeting or call to discuss your needs.

Specialist Insurance

SSR Combined

We offer bespoke insurance policies for niche industries that have specialist cover requirements which the general market is usually unable to meet.

We have drawn on our extensive experience of the contractors' liability insurance industry, coupled with the development of an improved e-trade platform in conjunction with Acturis, to create a single product designed to respond to the needs of brokers and insureds alike.

SSR Combined boasts instant quotes and documents, with flexible commission levels and all the usual cover enhancements you expect from our bespoke policy wordings.

Security & Fire Protection

Whether your client undertakes security services such as manned guarding, keyholding and alarm response, or the installation and maintenance of fire protection products, we have a wide appetite for these often difficult-to-place risks and a specialist wording to provide your clients with the cover they need. You will find that many insurers do not have an appetite for the liability insurance of companies operating in this sector.

Our underwriting team have a wealth of experience in dealing with Security and Fire Protection risks, so you can rest assured that we have a thorough understanding of your clients' insurance needs.
