Optional Covers	tailored to the specific needs of a given risk.
Distribution	This product is considered e-trade on a full cycle basis. At any given point in the
Methods	quote / bind process manual intervention can be exercised by trained SSR
	underwriters but the start and end of the journey is e-trade. This product is
	distributed through insurance intermediaries. The required knowledge on the
	need for the product and measurement of its value compared to the market
	requires distribution through professional intermediaries.
	The state of the s
	SSR do not permit placing brokers to deal with other intermediaries and create a
	chain below SSR, the expectation is that if such agreements are in place these are
	disclosed to SSR.
Is This Product	SSR are confident that this product provides fair value based on the known
Providing Fair Value	existence of a target market by virtue of this product catering for market sectors
	long-established and by the fact that historical claims performance of SSR written
	insurance demonstrates that the products can be used in various circumstances
	and claims will be met. There is no suggestion that the covers offered within this
	product are not suitable to the target market, but SSR regularly review their
	approach and will amend the product should there be any concerns over the
	efficacy of the covers offered.
	SSR have assessed the value of the product based on various measures including
	claims performance, complaints and premium levels.

	levels of overrider charged are comparable with market standards and do not pose a risk to the value of the product.
	Admin fees levied are kept to reasonable levels and support operational overheads including but not limited to IT system costs. Premium finance is available on this product. SSR are satisfied that the rates and
	SSR's commission model supports fair pricing and SSR do not benefit from others involved in the distribution chain increasing/decreasing their commission. Any eventual commission passed on to a placing agent is capped at a level well within market norms. Fees levied on this product by SSR are also well within (or below) market norms.
Risk To Fair Value Mitigation	SSR do not offer optional covers which are wholly unsuitable for the target market / do not offer classes of insurance for which no claim would be reasonably foreseeable.
